

CITSLINC INTERNATIONAL

Useful Tips for China:

- ✧ You will get to know each other really well – having parties
- ✧ The Tour Guides are open and very knowledgeable. Anything you ask – historical, political, freedom – they have pretty straight answers
- ✧ Hotels are very comfortable and accommodating
- ✧ Beijing – (North – Great Wall) very cold in March, especially early in the morning; Shanghai and other cities you visit, being in the South, are more comfortable
- ✧ Medications: Carry what you need with you; don't expect to find a Rite Aid to get what you need. Refrigeration for medications, if needed, is available in the Hotel
- ✧ Can find ATM almost anywhere – get local money. But didn't need much money.
- ✧ Tell your credit card company
- ✧ Create a shopping list before you go – more than enough opportunities to shop; which could become overwhelming – pearls, silk, etc.
- ✧ Do your homework ahead of time; read what you can about China before you leave.
- ✧ Take good notes; otherwise your pictures may not match you memory.
- ✧ You will get plenty of food
